

## Portable Dental Unit

**Price: 390/Set**

Can you image that the dentist will take a dental unit with them to anywhere for visiting a patient at home one day? Can you image the dental unit will not stay at the dental clinic only but can take away anywhere by the dentist? All the things will become reality with our Portable Dental Unit.

The Portable Dental Unit which comes from our Yunsheng contains the leading technology. These fully self-contained, economical dental systems run two high speed headpieces and accessories from an on-board oil less compressor.

The Portable Dental Unit looks like a suitcase with durable material case on wheels with 2 handles and personal lock system. It's very convenient for you to take to anywhere due to its portable and humanity design. The outer surface of the Portable Dental Unit is made of aluminum, which can prevent from damage and water.
