 Address: Room 201 Building3 ,2688 Jinqiu road Bao Shan District, Shanghai 200444 , China

Good smile design! ^_^

The Suggestions before ordering your Intra-Oral Camera:

- (1) Lens is the "Eye" of camera, all professional camera only adopt **Optical coated glass lens**, not normal plastic lens.
Handy® camera camera only adopts Advanced 7pcs optical 7-layers coated glass lens
- (2) Sensor is the "brain" of camera, the sensor used for camera come with two types: CCD and CMOS
Sony® CCD ,OV® CMOS are the best choice of camera. Note: the real 1/4" sensor Sony® CCD is ≤ **0.47 Megapixel**
- (3) Professional Welding technology is the guarantee of stable and high clear image. We adopt Wold-Leading **Ultrasonic welding technology** abandoned laggard screw(results rust and dusty) and glue (results allergic, rejected by Medical Professors) assembly technics
- (4) The USB technology we adopt is High-Speed working **USB 2.0**, we have abandoned the laggard USB 1.1
- (5) Our innovated software- **Handy® for Windows®** (English version) suits for all languages basing on all windows® software (2000 and XP), (Vista is under finial testing)
- (6) Order camera from professional camera manufacturer, not from trading company. Handy® not only produce quality camera but also professional service

Camera Designed for Clinic use (7-Layers Coated Optical Glass Lens)

		Advantage
	<p>SuperVista Luxurious USB Cam 1.3 Megapixel (PC Type)</p> <ul style="list-style-type: none"> ● USA OV CMOS 1/4" high resolution sensor ● USB 2.0 Output ● Pixel: 1.3 Megapixel ● Auto focus: 5 - 30mm ● 6 LED lighting ● With Imaging Management software - <HANDY for windows> ● Sepcial Design - Double botton, easy to use 	<ul style="list-style-type: none"> ● Twain driver ● Different Language Version of software with many useful functions,View,print,save,zoom,swap ect.
	<p>ViewFinder Economy AV Cam (TV / Monitor Type)</p> <ul style="list-style-type: none"> ● USA OV CMOS 1/4" high resolution sensor ● Design with full-image display (<i>Four-image option available</i>) ● With fuction of freeze by pressing "Blue Botton" (No Freeze function, Another Price !) ● Pixel: 0.3 Megapixel ● Auto Focus: 5- 30mm ● 4 LED lighting ● 4AAA battery power supply 	<ul style="list-style-type: none"> ● connected with TV monitor(LCD or CRT) ● The image could be frozen with no docking station ● Power supplied by battery,reduce more connecting line
	<p>CamASSIT USB+AV Cam (Multi-Function Type)</p> <ul style="list-style-type: none"> ● SONY CCD SUPER HAD 1/4" high resolution sensor ● Effective Pixels & High Resolution: PAL: 752(H)x582(L) (0.47 Megapixel) NTSC: 768(H)x494 (L) (0.41 Megapixel) ● Power:12V(2A) ● With four-image docking ● AV output (PAL \ NTSC \ SECAM) ● Can be connected with the other vedio DVD etc. <ul style="list-style-type: none"> ● Auto focus: 5-30mm ● 6 LED lighting ● 2 AV signal input ● USB 2.0 output 	<ul style="list-style-type: none"> ● Perfect combination of digital and analog signal ● Save 12 images in flash memory ● Display 1 image in full screen and 4 images in quard screen
	<p>Mr. Holder Monitor Arm</p> <ul style="list-style-type: none"> ● With paint coated,compatible color with chair dental unit ● Revolves freely ● Strengthened design, suit for full size LCD * We accept special requirement (for example: without paint coated etc..) or special design under good quantity 	<ul style="list-style-type: none"> ● Made of nylon, very strong ● Flexible, rotate in 360°
<p>for LCD holding, distance of two holes: 7.5 x 7.5cm , 10 x 10cm for the stand support of dental chair unit, diameter from: 40 - 47mm</p>		
	<p>LCD TV (15")</p> <p>Come with the function of PC + IPTV + AV</p>	<ul style="list-style-type: none"> ● Multimedia monitor ● Work for camera,also play DVD,for relax
